

I have been enjoying listening to AIR1 for many years. I currently listen on 90.1, and have many friends and family members in the area who currently enjoy AIR1 on a daily basis. I know I speak for MANY when I say If AIR1 were to be displaced by an LPFM broadcaster providing other programming, many people in the community would suffer. The service provided by AIR1 is in the public interest because it provides positive, uplifting, encouraging words and music that gives listeners much needed hope and peace.
